

Course Testimonials

Implant Mini-Residency

“Ken has developed various system guidelines’ that makes implant participation in your practice do-able, both from the planning aspects as well as its execution surgically and prosthetically. Perhaps the best course I have taken in the last 30 years and I have clocked thousands of CE hours.”

Dr. Norm Blumenstock

Monroe Township NJ USA

“Thank you Ken! The program is a reflection of your dedication, expertise and professionalism in the field of implant dentistry.”

Dr. Joseph Boulter

Jacksonville FL USA

“I will rave about this course. Dr. Hebel is a true educator. The course format and content reflect hours of preparation. After 27 years of practical and numerous courses this is one of - if not - the best. Thanks”

Dr. Judith Giorgio

Evansville IN USA

“This implant program was just perfect and realistic with lots of useful and practical information. It made me realize what I have been missing about dentistry and how enjoyable and profitable implant dentistry is. Dr. Hebel is an excellent speaker and has made an important impact on my career as a Dentist.”

Dr. Mohsen Solhjo

Waterberry CT USA

“This is the best implant course/program that I have taken. It is an excellent program for beginners. It is comprehensive, logical, and clear. Dr. Hebel’s style is the perfect mix of humor, pacing and historical and current knowledge presentation. His style is almost conversational and this really lends itself to easy acceptance and learning by participants. I will certainly integrate this experience in my private practice.”

Dr. Kenneth Palm

Colchester VT USA

“This course was very useful for me. I gained a lot of information in terms of implant treatment planning with regard to occlusion, positioning and safety. I would highly recommend this course to any general dentist who wants to pursue the basic implant knowledge and understanding of implant dentistry.”

Dr. Igor Shmurak

Philadelphia, PA USA

Course Testimonials

Implant Mini-Residency

“The most practical, informative and therefore useful implant course I have ever taken. Thanks Ken -- It was a true pleasure”

Dr. Timothy Kaigler

Stockbridge GA USA

“I have been practicing dentistry for 25 years and taking continuing ed regularly during that time. This was by far the most informative, complete and helpful program I have ever taken. Ken’s command of the material, audio visual technology and presentation of the material was extremely interesting. Over the 8 days there was never a time when the information stopped. If you’re truly looking for a “string of pearls” this is the course to take. Thanks Ken for all your information and commitment in relaying your hard learned tricks to us. Hope to hear your lecture again in the near future.”

Dr. Ralph Zonies

Cherryhill NJ USA

“This is the closest course I have taken on implant placement to providing “cook book” instructions. Very well presented, organized and interesting.”

Dr. Robert Burstein

South Windsor CT USA

“This course provides comprehensive hands on training that will enable me to implement implant prosthodontics right after the course. Excellent course for everyone.”

Dr. Praveen Simlote

Dewitt NY USA

“Dr. Ken had excellent material executed in a very good sequence using good visuals. He has an excellent command over expressions. His presentation is a science essay of implants that gets the point across very effectively.”

Dr. Devenders Singh Gujral

Lockport NY USA

“I had previously taken the Branemark course (1998) and other courses at national meetings (AAP etc). However Dr. Hebel’s course has been the most practical and well organized implant course and has given me the practical tools to integrate implants into my practice. Also, having the course taught from the restorative perspective was a great benefit.”

Dr. Ron Craig

New York NY USA

Course Testimonials

Implant Mini-Residency

“The course to attend if you are interested in doing implant dentistry.”

Dr. Sailesh Patel

Bronx NY USA

“I have taken several implant programs of this year and this has been by far the best. I recently took this 2 day implant course from the Perio Institute that , although good, was not enough to make me feel “ready” to incorporate the surgical phase of implant treatment into my practice. After taking this course I now feel “ready” to start placing implants. Great facility and instructor. Dr. Hebel was outstanding. Everyone could easily tell he has spent a great deal of time in preparation for this program.”

Dr. Bob Deason

Jacksonville FL USA

“I will highly recommend this course. I researched the courses, heard about this one from other Dentists that are on the lecture circuit and they recommended it. The price and course was very good for an 8 day study.”

Dr. Jack Magee

Magee NS USA

“Very informative. One of the best continuing ed courses I have taken.”

Dr. Arthur Sewell

Louisville KY USA

“I felt this course was organized informative and useful. Dr. Hebel knows dentistry and implants better than almost any lecturer I have ever heard. More importantly when he doesn't know something he admits it. It was a pleasure to listen to him for 8 days.”

Dr. Micheal Lassaw

Tarrytown NY USA

“I think this program is great. There is no reason for a general practitioner Dentist to refer out patients when cases can be done in our own clinics. I highly recommend this program to all my colleges that want to enjoy our great profession “Dentistry”.

Dr. Martha Salazar-Yerg

Houston TX USA

Course Testimonials

Implant Mini-Residency

“This is a very complete course from helping what fee to set to problem solving during surgery. It gives you a great understanding as to what you are going to be challenged with. All in all a great course.”

Dr. Oscar Maldonado

Inglewood CA USA

“This course should be the standard of care for dentists that want to place implants for the first time.”

Dr. Jeffrey Emmi

Wilmington DE USA

“Excellent class. Very practical for general dentists.”

Dr. Yu Liu

Bloomfield NJ USA

“Excellent course to take”

Dr. Hua Zhu

Piscataway NJ USA

“Not ever have I had any implant training. This course was the comprehensive “one” I was looking for. I especially liked the 8-days experience to allow me to learn, digest, learn, digest and learn. Coming into this course my goal was to learn the principles and concepts, and I know with “hands on” this factor will help cement the principles and concepts. I never dreamed that I’d leave here in 8 days, excited to place implants. 8 Days is such a short time to gain so much investments. I will highly recommend this course to my colleagues.”

Dr. Pichada Honick

Chester MD USA

“One of the best programs I have ever attended. This course has given me enough training and confidence to start surgical placement of implants. Dr. Hebel is a great communicator and teacher. He was very sincere and answering any questions asked by participants. The course not only teaches you how to do implant but also great deal of prosthodontics. I will strongly recommend this course to any one who wants to learn implant dentistry.”

Dr. Harvinder Chadda

Port Orange FL USA
